

RIVIERA Vaso / Pot

Sono sempre stato attratto dalla natura che manifesta la sua forza in contesti inaspettati"; così Aldo Cibic, in collaborazione con Cristiano Urban, si confronta con un'estetica del paesaggio in miniatura, lavorando su una poetica che si concretizza in strutture/contenitori/oggetti, realizzati interamente in ferro da De castelli, in cui accogliere dei piccoli giardini, alcuni pensati per l'interno e altri per l'esterno, che hanno il solo desiderio di rappresentare un'idea di natura in modi e contesti inaspettati.

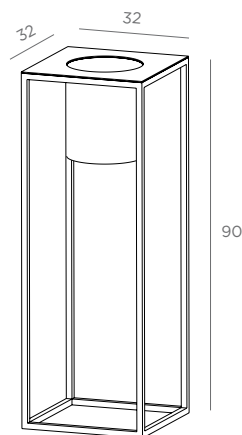

"I have always been attracted to Nature that manifests its force in unexpected contexts"; so Aldo Cibic, in collaboration with Cristiano Urban, comes to terms with a miniature landscape aesthetic, working on a poetics that takes concrete form in structures/containers/objects, all realized in iron by De Castelli, to contain small gardens, some designed for indoor settings, others for outdoor locations, with the sole desire of representing an idea of nature in unexpected ways and contexts.
