MATTEO THUN ANTONIO RODRIGUEZ

Born in Italy in 1952, Matteo Thun co-founded the Memphis Design movement in 1981. Having trained as an architect, his practice promotes designs which are simple in appearance but complex in meaning. The winner of many awards, in 2004 he was inducted into the Interior Design Hall of Fame.

ELEGANCE

Laguna is a collection of spherical glass lamps in different hues accompanied by cylindrical bases from lacquered metal, chrome and brass. With its pure elegance and its harmonious curves, Laguna was designed for hotel and residential interiors.

SAVOIR FAIRE

Laguna combines traditional hand-blown glass techniques with the latest LED technology, to ensure environmentally friendly lighting and durability. The hand-blown glass gives the light a soft ambient glow.

HANDBLOWN GLASS

“The lagoon of Venice was the main inspiration: its fascinating atmosphere, its light and its mist. The character of the collection reflects its main material: hand-blown glass from Venice.”

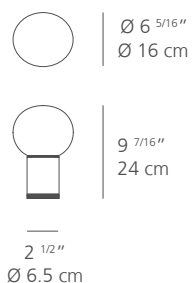

Matteo Thun
